

LOUISE GASKILL

C O M P A N Y

— original art lighting & drapery hardware —

Louise Gaskill Company

Exquisite detailing defines Louise Gaskill Company. Known in the lighting industry for vintage glass designs and gilt finishes, Louise extends this same vision to her boutique line of drapery hardware. The use of acrylics and hand gilded shapes is distinctly vintage in feel yet modern in design.

- 12 Art Finial styles
- French Return Collection
- Acrylic and wood rods - available in 1.5", 1.75", and 2" diameters
- Coordinating rings and brackets

FINISHES

Gilded finishes are available in gold or silver leaf. Due to the nature of gilding techniques, metal finishes can vary slightly from piece to piece.

INSTALLATION RECOMMENDATIONS

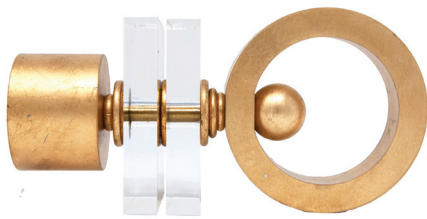

A professional installer is recommended for your hardware installation.

Three support brackets are suggested for every 8 feet of rod. Consult your installer or fabricator for guidance on bracket requirements as drapery weight and rod diameter may impact bracket count.

Acrylic, wood, and French Return rods may be joined to extend overall length. The connector options will be included as required. A center bracket must be used when joining two rods together for support and to hide seaming.

Art Finials

Finials are sold individually.
Please specify finish when placing order.
Our finials coordinate with our rods. Industry standards vary and other rods may not fit our finials.
Finials are available in gold or silver leaf.
All finials have a rod insert length of 1 1/8" which is included in the overall length.
